

Commerce Technology Staffing Solutions

About C4Commerce

Founded in early 2011 by eCommerce recruitment specialists. C4Commerce was formed to support the fast growth eCommerce software platforms, their channel partner communities and the brands investing in digital technology and omni-channel.

C4Commerce works with eCommerce and retail technology software vendors, systems integrators and buy side b2c/b2b brands. Our portfolio of services are flexible enough to help you achieve optimum team structure quickly at the right price point.

Each service line delivers multi discipline staffing capability around ecommerce / retail technology, digital marketing and the creative landscape of omni-channel b2b and b2c eCommerce.

Our delivery is managed by industry specialists and include screening and vetting methodologies that seamlessly integrate into your existing business process.

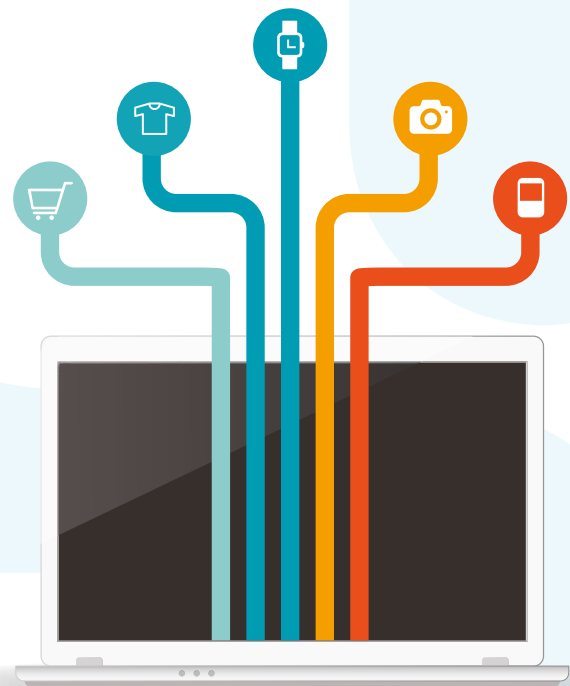

Why C4Commerce

C4Commerce consultants are a team of eCommerce and digital specialists who listen to and understand our customers. We combine subject matter expertise with bespoke talent consultancy, whether implementing complete recruitment processes or enhancing and stabilising staffing procedures already in place. C4Commerce consultants work with you to help your business perform, driving down the time you spend on hiring away from the business and the costs associated with building project teams.

Whether you are a thriving start-up pursuing rapid growth, a systems integrator / agency or b2b b2c brand. Our consultants are proactive in the pursuit of your organisations resourcing goals.

Unique focus

Our unique focus on eCommerce and Omni channel ensures unravelled knowledge of eCommerce / retail tech and operations in both a professional services and buy side capacity. Our industry focus allows our consultants to source, screen, vet and pin point the right experience and expertise so our clients do not have to.

C4Commerce is at the sharp end of innovation in digital with a laser focus on delivering recruitment and staffing solutions to support businesses with staffing and recruitments needs across the software, technology, creative and marketing landscape of digital.

Teams
Technology
Individual hires
Operations

C4Commerce staffing solutions include:

- Permanent and contractor hiring
- eCommerce platform workbench delivery model
- Recruitment process outsourcing
- Salary benchmarking and definition
- Role and organisational structure definition
- Psychometric assessment
- Software vendor delivered eCommerce platform training & certification

All our service lines ensure timely delivery of the right resource, at the right cost point, to achieve optimum team structure.

Our team understands that it is not just a CV or role specification, that dictates a staffing project. It is our ability to drill down and pin point the specific skills you require and highlight the relevant expertise in a candidate's previous experience, whether our engagement is a single hire or as part of a wider staffing campaign.

Commerce platform credentials:

- Supporting a mixture of new or existing Hybris, Demandware, Oracle ATG, IBM and Magento customers
- Partner enablement for lead systems integrators and agencies across platforms
- Project team build - plug in & extension design, development and deployment
- Training & certification
